About This Game

Adapt is a survival evolution game designed to simulate the constantly changing environments life must navigate to thrive. To succeed, your species will need to find food using a multitude of dietary strategies, seek out habitable environments, and react to changing seasons, and global climate. Your competitors will evolve alongside you, vying for food and territory to ensure their own survival.

- Live Features -

- Species' customization through modification of genetics and physical traits to determine your evolutionary strategy.
 - Numerous adaptations allow for diverse play-styles and physical characteristics.
- Plant life exhibits seasonal behaviors and growth, producing seeds and fruit, losing leaves, and acting as home for edible insects.
 - Complex species AI behaviors including hunting for food, seeking mates, tracking, and hiding from predators.
 - Attempt to survive virtually anywhere, from the tops of mountains, to the bottom of the seas.
- Species specialization through special abilities such as varied dietary and locomotive strategies, shells, poison, and climbing.
- Hunt or be hunted: Predators will stalk, chase, and track potential prey for an ambush, and even cooperate for an easy meal.
 - Visual, audio, and scent queues, to keep tabs on potential friends, threats, and food.
 - Dynamic day/night, and seasonal cycles create a living, and constantly changing world.
- Multiple reproductive strategies provide diverse species relationships and unique experiences.
